

RECLAIMED WOOD

Reclaimed Barn Beams (Rough-Sawn)

SKU: VS-RW-BBR-002

Harvested from pre-1950s agricultural barns across Yazoo County, Mississippi and the surrounding Delta region, these rough-sawn timbers carry the original saw marks, weathered silver-grey patina, and load-bearing integrity of old-growth hardwood. Available in six cross-sections from 4x6 to 8x12, each beam ships with a licensed structural engineer's load-bearing verification — no nominal sizing ambiguity. Species run mixed hardwood: oak, cypress, and poplar are the predominant finds, selected for density and absence of active decay.
